

Chat Messages | #TogetherSeparately Live Talk with Dr. Alexander Drilon

00:19:26 Alisa Brenes - NYC: Hello all

00:19:34 aubreyrhodes: Hi Alisa!

00:21:29 rosmiller: Is there a list of all the new drugs available - clinical trial or as a standard treatment?

00:23:26 Cristina Chin: Great question rosmiller! We update our website regularly at <https://www.lungcancerresearchfoundation.org/research/why-research/treatment-advances/> and/or you can learn about all of the treatment options through the NCCN guidelines for patients at <https://www.nccn.org/patients/guidelines/cancers.aspx>

00:23:54 Scott Morris: thank you for having Dr Drilon. my mom is lucky to have him as her dr for the last 5 years. he is excellent. very caring and explains everything in layman's terms so well.

00:24:13 rosmiller: Thanks Cristina!

00:24:26 Alisa Brenes - NYC: What hospital is he affiliated with, I missed that ...

00:24:27 Scott Morris: are there any new approved therapies that help EGFR mutations?

00:26:41 Jennifer Mylock: Alise Brenes, Dr. Drilon is a medical oncologist at Memorial Sloan Kettering Cancer Center

00:26:55 Alisa Brenes - NYC: Thanks, I saw it was by his name :)

00:27:26 Christine Wu: What are the new targeted therapy for ALK and ROS1?

00:29:22 aubreyrhodes: Feel free to chat your question in...

00:29:49 Lin McTeague: EGFR20 specifically

00:32:41 Christine Wu: What are the new breakthroughs in a near future for ROS1 and ALK?

00:34:38 rosmiller: This is probably a better question for Dr. Drilon

00:35:15 rosmiller: What is the time frame for new drug approval for lung cancer vs COVID-

00:35:39 Scott Morris: please tell him he's the best! thrilled he is here.

00:35:48 Valentina: What about the drug resistance onset in patients treated with the combination of ramucirumab and erlotinib? Is it frequent as for erlotinib treatment alone?

00:39:02 rosmiller: Has there been an increase in lung cancer diagnosis because of COVID

00:40:23 Kris Flink: thank you so much!

00:40:33 lea pagliari: what's the next step after Tagrisso does not work

00:40:34 Valentina: thank you so much!

00:44:55 rosmiller: Will there be a recording of this available later

00:47:57 Jennifer Mylock: Rosmiller, yes! We are recording and will add this to our website here: <https://www.lungcancerresearchfoundation.org/get-involved/togetherseparately-livestreams/>

00:51:15 shahida: If immunotherapy does not work what is the next choice?

00:56:19 lea pagliari: thank you for raising the question, Aubrey!

01:02:04 aubreyrhodes: Any other questions that you'd like for Dr. Baranski to address? We have time for one or two more

01:02:48 Reina Honts: How long have we seen patients having such on these drugs. I know its new but what are we seeing?

01:03:09 Reina Honts: I mean having success on these drugs. Keeping the cancer at bay.

01:09:12 Alisa Brenes - NYC: Thank you very much!

01:10:57 Dennis Chillemi: Thank you everyone! Stay Safe.

01:11:12 Scott Morris: thanks everyone at LCRF. great, as always. thanks for all of your continued hard work on behalf of lung cancer patients everywhere.

01:11:16 Erica Helphand: http://participate.lcrf.org/site/TR?fr_id=4012&pg=entry

01:12:01 shahida: thank you

01:24:18 Kris Flink: thank you so very much I have to go :)

01:35:41 Jennifer Mylock: Thank you so much, Rise and Reina. This has been my first experience with yoga and I really appreciate being part of this!

01:36:40 Jennifer Mylock: On Monday, we'll be back to our regularly scheduled time and link. 12:30 Eastern <https://lcrf.zoom.us/j/97603319328>. We'll be posting reminders in the #TogetherSeparately Facebook group!

01:41:21 Aine Calgaro: Thank you!

01:41:31 Aine Calgaro: Reina, I love your dog <3

01:41:37 Cheryl Kitchner: love it
